

Gotta Get Rich

YN Jay

(Oooh, Sav, killed it)

Aye, even when I spend my money, I was still grinding
Even when I stood in the shade, I was still shinin'
Even when I seen the avalanche, I was still climbin'
I been in the A, but where I stay, niggas still dyin'
Fell off, bounced right back, I was still tryin'
Got caught cheatin' on my bitch, I be still lyin'
Plane just landed, but I'm high, I was still flyin'
In the kitchen cookin' in the lab, it was real science
Okay, I sell all the drugs, but I still buy it
Gabe died a couple years back, but I'm still cryin'
Knew I was gon make it, had to wait, it was still timin'
Told Mama I just wanna shine, like a real diamond
Even when I park my car, I was still drivin'
I just took a bitch on a date, it was a real dine-in
You ever been to Coochie Land? It's a real island
I told B I fucked C, but she still whinin'
Aye, I can't play with you
I'ma fuck you good and leave, I can't stay with you
Too much goin' on, I got plays, I can't make it too
Lookin' at my life, I stepped back, had to paint the view
Oh my bad, I thought a lame nigga said somethin'
Niggas talk crazy, see you out, they ain't sayin' nothin'
Nigga tried to take the whole loaf, see the bread comin'
Boom, they kicked down the door, now the feds comin'

I just poured a whole 8, but I ate it too
Hold on, I put it on my chicken
Treat the Odell like gravy, put it on my biscuit
Nigga said that he was gon do what? I put him on my hit list
My young dawg ain't never got no pussy, put him on my thick bitch
