

What It Cost

YNW Bortlen

(Damn Chance, you made this?)
(Ayy run that back Foreign)

Do you even know what it cost?
All I been doing was staying down
Young nigga I need it now
Take no less, living legend, teaching lesson, cost me bottles
They want the crackers to put me on
Truth be told, I ain't worried 'bout none
Niggas know I ain't worried 'bout none
Do you even know what it cost?
All I been doing was staying down
Young nigga I need it now
Take no less, living legend, teaching lesson, cost me bottles
They want the crackers to put me on
Truth be told, I ain't worried 'bout none
Niggas know I ain't worried 'bout none

Niggas won't leave it in the streets
Niggas want internet beef
Niggas worried 'bout some clout
Fuck nigga run their mouth
Everybody masked out, walk 'em down
Shit like Nightmare On Elm Street, huh
Run it back, bitch, back again
I'm sitting with all of his friends
My young nigga play with them bands
Forgot them all, no mans
Big B's with a few C's
Know we shine all on they ass
So I come through like Nightmare On Elm Street
Painted to the rear, fuckboy don't test me
Niggas know they ain't want problems
Glock 23 with a drum
Hop to racks only
Carbine 19 bust you open
Show me, my opponent
I already know how you niggas bome
But we slime as hell, only time will tell
They didn't want me to prevail
Knowing that I'm solid as hell
Grinding tryna see a mill'

Do you even know what it cost?
All I been doing was staying down
Young nigga I need it now
Take no less, living legend, teaching lesson, cost me bottles
They want the crackers to put me on
Truth be told, I ain't worried 'bout none
Niggas know I ain't worried 'bout none
Do you even know what it cost?
All I been doing was staying down
Young nigga I need it now
Take no less, living legend, teaching lesson, cost me bottles
They want the crackers to put me on
Truth be told, I ain't worried 'bout none
Niggas know I ain't worried 'bout none
