

10:05

YNW BSlime

It's a Saturday night
And I'd be willing to try
Anything that could help with my problems
You know that I've been upset
And I just feel like a mess
But us going out it could solve it

Pick me up at 10:05
Let's go out and have a night we won't forget
I need a few more rounds, a couple more sips
And we can show the city how we do it where we live
Screaming oh
Let me tell you why I love
Going out on the town every weekend
And getting drunk till I've lost all my feelings

It's the middle of the summer soon it's gonna be fall
And I'd be lying if I said that I didn't wait on your calls
It's 10 PM, spin again, we can hit up the bar
Shit I'm the man who you call when you wanna have fun
Girl hit the line to my phone when you need me
And mix that lime and patron like its easy
4 more rounds
Why the liquor always put me in my feelings
Hit the ave in the evening cuz I don't know how to deal with it
And as the sun goes down
Girl were going back out
And were gonna black out
Ya know?
I've been waiting all night to see you

Pick me up at 10:05
Let's go out and have a night we won't forget
I need a few more rounds, a couple more sips
And we can show the city how we do it where we live
Screaming oh
Let me tell you why I love
Going out on the town every weekend
And getting drunk till I've lost all my feelings

Lookin' for some love you know I'm feindin'
I messed around and fell in love with a demon
She broke my heart, and left me down like what's the reason
I got some bands and kicked her out, she on the cement
I'm tryna swim feel like I'm drowning, man I'm sinking
She took my energy from me she left me weakened
The only time I let her come is on the weekend
I ain't gon' lie she left me hurt, she left me bleedin'
Okay, I'm not gon' wait for you lil baby we can part ways
I held you down, you held me down, that's on our dark days
Man, I had put you in the rolls so you could star gaze
Girl how you switch up on me left me with a far face
I tried to make a way for love
You tried to stray away from love
How could I ever make this up
Won't trip this from the man above

Pick me up at 10:05
Let's go out and have a night we won't forget
I need a few more rounds, a couple more sips
And we can show the city how we do it where we live
Screaming oh
Let me tell you why I love
Going out on the town every weekend
And getting drunk till I've lost all my feelings
