Call back, oh
Ay, young new world, young new wave

She wanna know if I got time to do so
Take care of me no I can't just not do that
I remember those days I couldn't even get a callback
Woah baby you need to slow your roll right now ayy
Go baby yeah I'm on the go right now
Shows baby yeah I'm doing shows right now
Talking to you got my heart on lockdown

Finish your sentences if you say you love me better finish it
Better finish your sentence before I catch your soul and replenish it
