

Dying For You

YNW BSlime

Do you want smoke?
We want all the smoke

Tell me what you want, tell me what I can do
'Cause I know that my soul is dying for you
Tell me what you want, I'll do all I can do
'Cause my soul is out here burning on fire for you

And I can't realize how much I done been through
When I argue it feels like all the pain I been through, been th
rough

When I hug you, the pain goes away
Baby, I need you until I go to the Heaven gates
Will you please go with me and be my lady
Stop arguin' with me, please stop bein' shady

Tell me what you want, tell me what I can do
'Cause I know that my soul is dying for you
Tell me what you want, and all I can do
'Cause I know that my soul is out here burning on fire for you
And I can't realize how much I done been through
When I argue it feels like all the pain I been through, been th
rough

Lovin' you, baby, I won't pretend to
Tell you that I love you on this instrumental
I told you that I love you, not coincidental
I'ma keep it real 'till my dying days
Baby know a nigga got young nigga ways
Poppin' loud like an AK
Tell me what you want, and all that I can do

Tell me what you want, tell me what I can do
{ 'Cause I know that my soul is dying for you }
Tell me what you want, I'll do all I can do
{ 'Cause I know that my soul is out here burning on fire for you
}
And I can't realize how much I done been through
(When I argue it feels like all the pain I been through, been t
hrough)
