

Going Through Some Things

YNW BSlime

Another beautiful day to make music man
Young nigga world, young nigga way
Been on my own

I been going through some things that I can't explain
She told me that she love me and she wanted my name
And even though she always lie I never forget your name
You had me broken in disguise I never forget the pain
I never forget the pain you had me walk in the rain
Even though I could did the same I'll never tarnish your name
Been broken since a young age some feelings I can't retain
Just tired of getting played you promised me that you'll stay

You would stay you would stay I guess that was a lie
Love was fake love was fake that was big surprise
I can't stay I can't stay that's what you told me tonight
Like come on bae that's not right outta my mind out of sight
Everything I sacrificed I wrote your name in the sky
I wiped your tears from you eyes
I let you into my life your heart is where I reside
I love you I will suffice don't got to put up a fight
Don't want you out of my life

I've been waiting for you baby
Call me lady my phone is vacant

I been going through some things that I can't explain
She told me that she love me and she wanted my name
And even though she always lie I never forget your name
You had me broken in disguise I never forget the pain
I never forget the pain you had me walk in the rain
Even though I could did the same I'll never tarnish your name
Been broken since a young age some feelings I can't retain
Just tired of getting played you promised me that you'll stay

See what y'all on
Stars align
See what y'all on
Big surprise
What is you on, baby girl what is you on
Call me tonight
I know you wanna hear this song, so baby girl call my phone
