

Keep Trying

YNW BSlime

Hundred dollar eighth gonna hotbox the booth
Sun beaming through the Z06 I'm finna drop the roof
They be snakes nowadays you gotta watch em move
Killed 24 songs straight so I'm gonna drop a nuke
You ain't the plug you in the middle like you Malcom
Dash say two hundred something feel like Danny in that Phantom
I done drew it up and mapped it out I promise it ain't random
He don't like me shit I fucked his bitch her handle
Wockiana quacky ache tris I got the juice in
Cut the traction hang up out the window let the coupe spin
I just popped a dub that's two tens
Ache pulled up on the weapon plug he got some new Gens
Hit my soda with a four it look like pomegranate juice
You might win the game scoring but you gotta pass it to
Balenciaga sweater like shit I gotta cash the shoes
If you want to pull up to the spot you gotta grab some ugh
Get the head from then I throw the peace sign
Down the way catching plays I'm with BSlime
Me and Dee chasing after sacks we like the D-Line
Tryna catch up to the gang shit keep trying

Shit keep trying, shit keep trying
Tryna catch up to the gang shit keep trying
Shit keep trying, shit keep trying
Tryna catch up to the gang we overlapped him three times

I been state to state I'm tryna get back home
He was talking on the net turned him into a tombstone
Brother caught a case but he finna be back home
Keep on playing with the gang and you gonna get stepped on
Why they keep on talking curry got a thirty
Yeah you know he finna walk em, really chalk em
I don't do this often pick his body up
Then I put up for auction, this is awesome
Well guess its nice to meet
Brodie posted up with them 40's if you can't see
I been posted up with your shorty you can't believe
He was acting tough got extorted he on his knees
Ha, no I ain't do it tho
Got a couple killers walk you down for a Louis coat
Know he got a gun he won't you use it it's just for show
One move and we let it go one move then we let it blow
I already told y'all to stop pocket watching
All up in this function we brought are pocket rockets
Always on the gram boy you really need to stop it
Giving out commands like this a game of bop it

Shit keep trying, shit keep trying
Tryna catch up to the gang shit keep trying
Shit keep trying, shit keep trying
Tryna catch up to the gang we overlapped him three times
