

What's Tha Word

YNW BSlime

Sliding with hundreds and sticks what's the word
If he not riding get kicked to the curb
I made it big man I'm knowing my worth
Nigga we went from the hood to the burbs
He said he with it I beg to defer
Seen him outside and he choked on his words
I'm doing it right I've seen it since birth
Add up them racks man I feel like a nerd might
Might just go cop a new crib in LA
Speak on the gang get shot in your face
Nigga I'm cool from the east to the bay
Bust down, match the other wraith
I'm up now they Tryna mess with the kid
I know some nigga who still serving the ye
I'm too blessed for the life that I live
I think God just to see better days

100,000 200,000 racks in the bins
I don't want friends no I don't want friends want Benjamins
They slimy as ever slimy as ever watch your kin
So I just want my dough ion really want no friends
My whodie down your door then he gone take your rent
My whodie kick down your door then he gone split your wig
And they need to free my bro ion want no friends
Said they need to free my bro ion really want no friends

Sliding with hundreds and sticks what's the word
If he not riding get kicked to the curb
I made it big man I'm knowing my worth nigga we went from the hood to the burbs
