

Nobody's Around

YNW Melly

I'll hold you down
Murda on the beat, so it's not nice

Like aw, when the sky falls down
I'll be right here to bring it up
Just turn it 'round, upside down
And look around, I don't know why, I'm gon' be around
I'll hold you down, I'll hold you down
Hold you up, when you're feelin' down
So what's up? Tell me that you love me when nobody's around

Tell me that you love me when nobody's around
Tell me that I'll always have you down
Have you down, for me
Oh Lord, I love to curse
Tell me that I'm gettin' on your first nerve
And not your last nerve
Cursed you out, I admit I said some bad words
Speed Racer, baby girl got some fast curves
I miss you
I wanna kiss you
But I got too much pride to admit this
This is the only time you'll hear this

Like aw, when the sky falls down
I'll be right here to bring it up
Just turn it 'round, upside down
And look around, I don't know why, I'm gon' be around
I'll hold you down, I'll hold you down
Hold you up, when you're feelin' down
So what's up? Tell me that you love me when nobody's around

Real music
Around, nobody's around (Yeah)
I really love you
Nobody's around (Yeah...)
Oh, please
Rose petal, ticklin' her V
I won't jump the broom
Chandeliers in the living room
And I'm not scared to love
But I'm so damn scared to trust
'Cause I'm so damn right all the time

Like aw, when the sky falls down
I'll be right here to bring it up
Just turn it 'round, upside down
And look around, I don't know why, I'm gon' be around
I'll hold you down, I'll hold you down
Hold you up, when you're feelin' down
So what's up? Tell me that you love me when nobody's around
