

# Save Me

YNW Melly

Yeah, mhm-mhm  
Save me  
Save me  
Save me  
Save, save me  
Someone, save me  
Uh (Oh, this shit gon' be crazy)

Someone, save me  
Won't you, please, save me  
Someone, save me  
'Cause I been rollin'  
Can someone save me? (Yeah)  
She screamin' out, "Baby"  
Oh, won't you save me? (Me)

You're too deep inside the water, ain't nobody comin' for you  
You're too deep inside the water

Stars reflectin' on the Caribbean sea  
I want you to know that that reflection is me  
And all of the diamonds that you got on your teeth  
Are shinin' like the motherfuckin' stars  
Itchy fingers, palms sweatin', what you tryna do?  
We been fucked up 'bout each other since middle school  
Think I seen this shit somewhere, it must be déjà vu  
Have I seen you somewhere? Is it déjà vu?  
I really want some more  
Oh, why? Keep it honest with me, baby, don't you lie  
Don't you lie

Someone, save me  
Won't you, please, save me  
Yeah, someone, save me  
'Cause I been rollin'  
Can someone save me? (Can someone save me?)  
She screamin' out, "Baby" (She screamin', "Baby")  
Oh, won't you save me? (Can someone save me?)

You're too deep inside the water, ain't nobody comin' for you (You too deep inside the water)  
You're too deep inside the water

Like, baby  
Can I believe in you to save me? (To save me)  
I woke up and you wasn't next to me (You wasn't next to me)  
So, I immediately thought it was a dream (It was a dream)  
I'm hurtin', feel it through the melodies (The melodies)  
I been lookin' for some love, think I'm a fiend  
Baby, look what you did to me  
Look what you made me turn into  
That breakup made me turn into a slimey dude  
The streets gettin' a hold of me  
I think I need to be rescued  
I'm gettin' dangerous  
If you come and try to test my gangster, it's gettin' deadly  
Fuck up, it's cock back, hand on the trigger, push it back

Someone, save me  
Won't you, please, save me  
Yeah, someone, save me  
'Cause I been rollin'  
Can someone save me? (Yeah)  
She screamin' out, "Baby"  
Oh, won't you save me? (Me)

You're too deep inside the water, ain't nobody comin' for you  
You're too deep inside the water

Ain't nobody comin'  
I'm too deep inside the water, ain't nobody comin'  
Swimming toxic, them piranhas, bet they eat your stomach  
Hollow tips rip through your vest, I bet they eat your stomach  
Locked my brother up, I swear, nobody seen this comin'  
[?] nobody seen this bomin'  
One of a kind, you know we turned a thing to something  
You're losin' your mind, you're ridin' 'round with all hundreds  
Yeah, yeah  
Watch how you move  
Want to see a nigga make the news  
I been outside chillin' with my crew  
Watch out, I got somethin' else to prove (Yeah)

Someone, save me  
Won't you, please, save me  
Yeah, someone, save me  
'Cause I been rollin'  
Can someone save me? (Yeah)  
She screamin' out, "Baby"  
Oh, won't you save me? (Me)

You're too deep inside the water, ain't nobody comin' for you  
You're too deep inside the water, ain't nobody comin'  
You're too deep inside the water, ain't nobody comin' for you (Ooh, woah)
