

## Another Feeling

Yodelice

I dream of me and you holding close  
Another time, another place  
I don't remember now  
To see that place again  
To find the friends  
That were here with me  
But now it's only pictures

When it's another feeling  
Than the one you dreamed of

Go back to dreaming  
To find that feeling again

I thought when I got here I would cry  
But I kept it all inside  
And kicked the door open  
Now there's a hole where the handle hanged  
Your evaporating kiss  
Cold on my cheek

When it's another feeling  
Than the one you dreamed of

Go back to dreaming  
To find that feeling again

When it's another feeling  
Another feeling
