

## Five Thousand Nights

Yodelice

I do believe there's a chance  
That not a chance, not a chance  
You care despair me a dance  
Not a chance, not a chance  
This once will not be the last  
Not a chance, not a chance

I've been hoping for someone like you  
Five thousand nights  
Let me be the one to love you for  
Five thousand more

What in the world was a chance  
That not a chance, not a chance  
You cry the song that I chanted  
Not a chance, not a chance

I've been hoping for someone like you  
Five thousand days  
Let me be the one to love you for  
Five thousand more
