

Monkey's Evolution

Yodelice

Hello hello I've been weak for weeks
Hello hello is there someone to speak?
Hell hello can you hear me?
Hello hello can you feel me?

Ache has no pride
I feel like null like nought like life don't need me
Like I could go missing nothing would change for an inch
Well it's probably so

Who said we have to be special?
A minor monkey's evolution

Hell hello do I mean anything?
Hell hello am I even being?
Hello hello can you see me?
Hell hello could you seek for me?

Ache has no pride
I feel like null like nought like life don't need me
Like I could go missing nothing would change for an inch
Well it's probably so

Who said we have to be special?
A minor monkey's evolution
