

Outer Space

Yodelice

In the age of anxiety
Something in the air
Something in the air
Cooling

Oh, no, how could this be?
Nothing to be scared
Nothing to be scared of today

Signal coming from outer space
I don't know what it means
Anyway
(x2)

From the outside, business as usual
From the outside, everything is under control
From the outside, everything is casual
It looks like nothing is impossible
(x2)

Signal coming from outer space (signal coming from outer space)
I don't know what it means
Anyway
(x2)
