

## Before I Fade Away

YOHIO

You hide yourself behind broken mirrors from the past  
I know it hurts when the pain is so diverse  
and all your hope is fading  
Seek the truth inside your soul  
You'll find a way and where to go

Catch me, I'm falling down

Someone save me before I fade away  
I know it's hard to forget but if you try  
You'll find a way to smile again

Turn off the lights and try to pretend that it's not dark  
Don't be afraid, even though your arms are filled  
with traces of your feelings  
Time will come to set you free  
Close your eyes and you will see

Catch me, I'm falling down

Someone save me before I fade away  
I know it's hard to forget but if you try  
you'll find a way to smile again

Kono kanashimi ga itsuka owaru no ka?  
Jibun no jinsei no imi wo sagashiteta  
Itsumo soba ni iru so shinjitetanda  
Boku was ima, mou ikitakunainda

Take the time to save yourself  
Break the chains and nothing else  
Find your way before you fade away

Someone save me before I fade away  
I know it's hard to forget but if you try  
you'll find a way to smile again

You'll find a way to smile again
