

Alone

Yoke Lore

I couldn't make a sound and then I fall away
I'm always upside down, I'm always in my own way
I want it all and then I suffocate
From all the things that force me to mutate

So I'll keep spinning and I'll never give up
Start revolutions and revolt when death comes
I'm like an angel and a dog in heat
And I'll fight like the answers in between

And I know what it's like to feel like you're on your own
But I know you can hear me through the bones of this dead zone

You know you're never alone now
You know you're never alone now
You know you're never alone now
You know you're never alone now

I'm on your side
And we can talk in tears tonight
Of all the times you tried
To find yourself in the fire

You're still not purified
And your flaws will bloom from time to time
And you can tear me up inside
Or you can feed me to the sky

And I know what it's like to feel like you're on your own
But I know you can hear me through the bones of this dead zone

You know you're never alone now
You know you're never alone now
You know you're never alone now
You know you're never alone
You know you're never alone now
You know you're never alone now
You know you're never alone now
You know you're never alone
