

Everybody Wants To Be Loved

Yoke Lore

Everybody wants to be loved
And everybody wants to be found
And I just wanna get the fuck out
Right now, right now
Oh!

Everybody wants to be loved
I just wanna find a way out
And change a certain taste in my mouth
But if I can set you up tell me how

Everybody wants to be loved
Everybody wants to be found
And I just wanna get the fuck out (It's not like I don't want l
ove)
(It's not like I don't want love) Right now
(I just wanna feel so fine) Right now
(I just wanna feel so fine)

I know when I look in your eyes
All I'll see is pain in disguise
I know what feels wrong in your mind
It hurts still faster now

Everybody wants to be loved
Everybody wants to be found
And I just wanna get the fuck out
Right now, right now
Hey!
