

## Ride

### Yoke Lore

I won't wait another day, I won't wait another day  
I won't wait till you come my way until you come my way  
Cause I know I'm chasing down my grave, know I'm chasing down m  
y grave  
And I want you riding next to me, want you riding next to me

Want to live want to live a good life leave love queen earth be  
my ground  
And every road my long legs walk down I get found  
Dead earth be my soft bed give me safety give me a crown  
I listen to the creatures till I hear that sound

How can I sleep in the wake of your night moves  
Now that I'm up can I tell you that you make me ohhh

I won't wait another day, I won't wait another day  
I won't wait till you come my way until you come my way  
Cause I know I'm chasing down my grave, know I'm chasing down m  
y grave  
And I want you riding next to me, want you riding next to me

Sing my songs about the ways I keep on doing you wrong  
Keep my heart close to the fire so I don't thaw  
Count the spots along your arms so I remember this  
Feel the weight of time and hold back the minutes

How can I sleep in the wake of your night moves  
Now that I'm up can I tell you that you make me ohhh

I won't wait another day, I won't wait another day  
I won't wait till you come my way until you come my way  
Cause I know I'm chasing down my grave, know I'm chasing down m  
y grave  
And I want you riding next to me, want you riding next to me
