

Safe And Sound

Yoke Lore

Your eyes burn like a torch in the winter
This fire won't die tonight
All the days of the danger, believer
You're my safe and sound
You're my safe and sound

Sunrise by your side
We'll find our own heights

Waking up in dark clouds, it's a shakedown
Believe that all my love and all my blood keeps me up
I'm singing for my age
Cause I'm living in the change

Sometimes on the warm days, my eyes blaze
I won't let you down today
I'll give you all the stars in my backyard
I'll be your safe and sound
I'll be your safe and sound

Sunrise by your side
We'll find our own heights

Waking up in dark clouds, it's a shakedown
Believe that all my love and all my blood keeps me up
I'm singing for my age
Cause I'm living in the change
