Yoke Lore

I'm the fire that gets you high
And you're the arrow piece the sky
If there's grace in my veins, I'll make it rain
If you hold me, I won't feel the blade

So flee the earth and learn to fly
I was born to use my eagle eyes
Cause your beauty burns what your heart deserves until your body learns

I believe in silence and you believe in love
I will dedicate every single breath I take to you
They can never stop a thing you don't drop
You got to love while awake
Get up on your feet and lift up your gaze
You gotta find time to shake
And they can never stop a thing you don't drop
You got to love while awake
Get up on your feet and lift up your gaze
You gotta find time to shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake

I'll be the wind beneath your kite
I'll be the bark behind your bite
I hate the days when losing makes me hesitate to play the game
So let me be the one to climb, but I'll keep you like my brothers

I believe in silence and you believe in love
I will dedicate every single breath I take to you
They can never stop a thing you don't drop
You got to love while awake
Get up on your feet and lift up your gaze
You gotta find time to shake
And they can never stop a thing you don't drop
You got to love while awake
Get up on your feet and lift up your gaze
You gotta find time to shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake
Sh-sh-sh-sh-sh-sh-shake

I believe in silence and you believe in love
I will dedicate every single breath I take to you
