

## Still Gone

Yola

You know you'll always be a part of me  
You're trapped forever in my memory  
Inside my heart, I keep a photograph  
Reminding me of what we used to have  
Can't go to places that we used to be  
Can't handle that familiarity  
If I saw you, I know I'd fall apart  
Can't depend upon my broken heart

You're still gone  
You're everywhere I go, but still gone  
I look around, I know you're still gone  
You're still gone, mmhmm

I swear I saw you on the street today  
There for a moment, then you slipped away  
I guess we see just what we wanna see  
My mind is playing tricks on me

You're still gone  
You're everywhere I go, but still gone  
I look around, I know you're still gone  
You're still gone  
You're still gone  
You're everywhere I go, but still gone  
I look around, I know you're still gone  
You're still gone, hey
