All In My Head

YONAKA

Boys or girls and I've gone too far
I got my baby screamin' at me like a new guitar
I let it go, 'cause you're worth the high
The way you look at me make me feel like a movie star

Lights out, I'm a wrapped up mess
Oh wow, I love the way that alcohol is on your breath
And, the way you move has got me obsessed
I'll take a blow or two for you in the chest

Because it's all in my head, baby
Yes it's all in my head, baby
I could shake the sound, gon' spell it out on blue
Because it's all in my head, baby
Yes it's all in my head, baby
I could shake the sound, gon' spell it out to you
I know you help me

Puppy lovin' and a howling dog
You see, I start to lose my cool, my memory turns off
Heart pops like a racing car
I gotta get it to my honey, make my sadness stop

Your lips are like a paradise
I seek it pressed against my own to make me feel alive
I wanna be everything you love
And I'm a fuck up, yeah

Because it's all in my head, baby
Yes it's all in my head, baby
I could shake the sound, gon' spell it out to you
I know you help me through

Da da la la la, da la la
Da da la la la, you make me
Da da la la la, da la la
Da da la la, I know you help me through

I know you help me through
I know you help me through, oh whoah, true
Said I know you help me

'Cause it's all in my head, baby
Yes it's all in my head, baby
I could shake the sound, gon' spell it out on blue
Because it's all in my head, baby
Yes it's all in my head, baby
I could shake the sound, gon' spell it out to you
I know you help me through

Da da la la la, da la la
Da da la la la, you make me
Da da la la la, da la la
Da da la la la

Because it's all in my head, baby
(Da da la la la, da la la)

Yes it's all in my head, baby
(Da da la la la)
I could shake the sound, gon' spell it out to you
(Da da la la la, da la la)
And, I know you help me
(Da da la la la)
