Fired Up

YONAKA

All fired up

Hand on my heart, I'm down on my knees
I'm asking you nicely
I'd take the blame, I'd take a bullet
Would you take one for me?
Bonnie and Clyde, ride 'til we die
Do it so carelessly
But up in my mind, you start the fire
Watch it burn out and leave

If you know what it's like to be reckless
You and I, we could fight, us against the world
Wear my waist 'round your neck like a necklace
In the past, loveless, I've changed

All fired up and frustrated
Lost our minds and our patience
Stay with me, I've done some changing
I'm waiting, I'm ready for you, baby
You can count on me

Washed all my sins
He perfectly fits into my darkest dreams
Run from my past, he's moving too fast
Love me eternally
Gun to my head, I'm already dead
If you think I would speak
My life at stake
No, nothing could break up me and my baby

'Cause we know what it's like to be reckless
You and I, we still fight, us against the world
Wrap my waist 'round your neck like a necklace
In the past, loveless

All fired up and frustrated
Lost our minds and our patience
Stay with me, I've done some changing
I'm waiting, I'm made for you, baby
You still get fired up and frustrated
Lost our minds and our patience
Stay with me, I've done some changing
I'm waiting, I'm ready for you, baby
You can count on me

I'm a slave to your game, I like it this way
A figure in darkness is calling my name
But I'm not the same, see baby, I've changed
I like it this way

All fired up and frustrated
Lost our minds and our patience
Stay with me, I've done some changing
I'm waiting, I'm made for you, baby
All fired up and frustrated
Lost our minds and our patience

Stay with me, I've done some changing
I'm waiting, I'm ready for you, baby
You can count on me

You can count on me
You can count on me
