

## Gods & Lovers

YONAKA

Cross my heart and hope to die  
I think I lost my appetite  
God and lonely ain't the same  
God has lovers, you got blame

But not your brain, but not your brain  
Because we know this way  
But not your brain, but not your brain  
I think we lost it

A blessed disease, it cuts like a lion's paw  
A thunderstorm, and I'll unlock my door  
A luxury, decide that you can ignore  
I take a leap to be like a lightning bolt

Ooh, ain't this what you bargained for?  
Ooh, get twisted on the floor  
Ooh, ain't this what you bargained for?  
Ooh, hey!

Cross my heart and hope to die  
I think I lost my appetite  
God and lonely ain't the same  
God has lovers, you got blame

But not your brain, but not your brain  
Because we know this way  
But not your brain, but not your brain  
I think we lost it

I'm tired of being a waxwork in a museum  
A film I've seen of everybody's bad dream  
I pick, you fray, oh, don't two loves ever steal?  
The kids believe we all belong on TV

Ooh, ain't this what you bargained for?  
Ooh, get twisted on the floor  
Ooh, ain't this what you bargained for?  
Ooh, hey!

Cross my heart and hope to die  
I think I lost my appetite  
God and lonely ain't the same  
God has lovers, you got blame

But not your brain, but not your brain  
Because we know this way  
But not your brain, but not your brain  
I think we lost our way  
I think we lost our way  
I think we lost our way

Ain't this what you bargained for?  
Get twisted on the floor  
Ain't this what you bargained for?  
Hey!

Cross my heart and hope to die  
I think I lost my appetite  
God and lonely ain't the same  
God has lovers, you got blame

But not your brain, but not your brain  
Because we know this way  
But not your brain, but not your brain  
I think we lost it

Cross my heart and hope to die  
I think I lost my appetite  
But not your brain, but not your brain  
Because we know this way  
But not your brain, but not your brain  
I think we lost our way  
I think we lost our way  
I think we lost our way
