Waves

YONAKA

Boy you're so addictive, got me shaking when you're gone
Claustrophobic when you're near, how did we get this wrong?
Like a roller coaster you come flying off the rails

Lately baby you and me we don't see eye to eye
I could say it's all your fault but half of it is mine
I'm clinging onto everything with my fingertips

No, I don't know how to behave
When you start screaming in my face
No, I just wanna ride this wave
I just wanna ride this wave
(Yeah)

We don't eat, no we don't sleep 'cause all we do is fight
Mix me in the ring and baby let's call it a night
I'm running on empty, this step is a feral act

Loser hates to free our minds, I'm living in your head
Apologise and leave behind everything that we've done
I'm breaking down your walls, is all
"Oh baby, won't you catch my fall?"

No, I don't know how to behave
When you start screaming in my face
No, I just wanna ride this wave
I just wanna ride this wave

No, I don't know how to behave
When you start screaming in my face
No, I just wanna ride this wave
I just wanna ride this wave
