

Good Day

YONAS

Today I got paid, it must be a good day
I went out on date, must be a good day
I drank too much, but in a good way
Then I got laid, must be a good day
I've been vibin' through the highs, eyy
I've been rollin' through the lows, eyy
I've been vibin' through the highs, eyy
I've been rollin' through the lows, rollin' through the lows

Yo, truth be told, fuck these other Rappers
I do they verses better than 'em, if I did them backwards
Forget them Grammies, I need Oscars, y'all clever actors
Someone go n' grab the erb, I go grab the backrows
I 'been lookin' in this mirror and my smile is on
'Cause I am bigger than this mountain I am climbin' on
Without a safetynet, I feel like this where I belong
And not inside a patty wag' and steering out the window on ride along
That's where I be when tru' MC come and pick me up
'Cause school was brong man, all we do was skip and cut
No father figure, no whoopin' nigga when the shit got tough
I had a hunnat dollars, feelin' like no one as rich as us
So we went in, we were seein' stars
And dreamin' about the day we drivin' them european cars
I guess it helped us forget the fact that we were scarred
You got your days, well Lisa [?]

Today I got paid, it must be a good day
I went out on date, must be a good day
I drank too much, but in a good way
Then I got laid, must be a good day
I've been vibin' through the highs, eyy
I've been rollin' through the lows, eyy
I've been vibin' through the highs, eyy
I've been rollin' through the lows, rollin' through the lows

Yo, truth be told, fuck these politicians
From now on consider me the toughest opposition
You [?] in, but we went we [?] pot the pissin'
Now I'm young, black and rich and playin' my position
Shippin' money gave the reason and my day is good
'Cause nothing makes me feel better than these players could
A lotta people never make it from my neighbourhood
So if they hatin', let them hate just like a hater should
I got the- win in my back and the world on my paw
I keep that- gun in my waist and thas word in my mind
And that's there just in case someone wanna' do harm
'Cause these days someone can take a sun and make it a storm
And if you ain't got the back [?], than give me a bong
'Cause right now, we celebratin', bein' happy and calm
So let's just make some history to bas [?] ton
It's peace and love till the day that I'm gone

Today I got paid, it must be a good day
I went out on date, must be a good day
I drank too much, but in a good way
Then I got laid, must be a good day
I've been vibin' through the highs, eyy

I've been rollin' through the lows, eyy
I've been vibin' through the highs, eyy
I've been rollin' through the lows, rollin' through the lows
