

# Hill Country Girl

Yonder Mountain String Band

Cool, cool me down river Pedernales  
My heart's a-burning for that hill country girl  
Look and I'll find along the Pedernales  
The answer, no question, my hill country girl

Chorus:

The kiss on her lips is cool as the water  
Sweeter than blue bonnets, sweeter than spring  
The light in her eyes has left me believin'  
Can't help but lovin' that hill country girl

What can I do river Pedernales  
What can I say to my hill country girl  
Here's where I stand along the Pedernales  
Come take my hand, my hill country girl
