

Into the Fire

Yonder Mountain String Band

[Verse 1]

Give you my heart and most of my soul
Looking for light in a love gone cold
So why am I lonely? Left high and dry
I'd give you the world and you ask for my pride

[Chorus]

It's out of the pan and into the fire
Well's hit bottom, flames get higher
When the smoke clears and ashes fall
Gonna wonder why we burned it all

[Verse 2]

I know there's a reason, just need a sign
To get my heart talking to this head of mine
Write it down plain, easy to read
We're on borrowed time, babe, I'm begging you please

[Chorus]

It's out of the pan and into the fire

Well's hit bottom, flames get higher
When the smoke clears and ashes fall
Gonna wonder why we burned it all

[Bridge]

If I was a sailor I'd look to the stars
If I was a drunk I'd run to the bars
If I was a farmer I'd furrow the ground
I'm a boy with a song that's barely a sound, it goes

[Chorus]

Out of the pan and into the fire
Well's hit bottom, flames get higher
When the smoke clears and ashes fall
Gonna wonder why we burned it all
Oh, we wonder why we burned it all
