

Sidewalk Stars

Yonder Mountain String Band

You looked at me through old windows
And said, "Dust is all I know"
And you're so clean and I'm so tired
Like lovers' smiles and green marker miles

Chorus:

Can't go back that's much too far
I'm asking you to laugh
But after all
You love a tragedy

Hope remains a sidewalk star
Could you stay right where you are
You're so smooth, and I'm on fire
Holding on, just watching it unwind

[Chorus x2]
