

All I Need

Yoshi Flower

And I have one dream
You give me what I need right
And I can't fall asleep
Until I know you'll be mine
And we go driving
You don't stop 'til it feel right
And I have one more
And you'd say all I need is you
All I need is you

And I have one dream
You give me what I need right
And I can't fall asleep
Until I know you'll be mine
And we go driving
You don't stop 'til it feel right
And I have one more
And you'd say all I need is you
All I need is you
All I need is you
All I need is you
