

Idle Hand\$

Yoshi Flower

Heaven is so far away
So won't you say
You love me right now
Cause idle hands
Are the devil's play
So dance with me
Beneath these grey clouds

Cause everyone's got something to hide
It's probably the reason we're all getting high
But lately baby I have realized
Everything is gon' be alright

Keep all my things
On the window frame
In case I fade away
Just give Tali my gold chain
We'd never say if we're feeling pain
Cause all of the drugs my friends taken
Have gon' up and numbed up their brains

And everyone's got something to hide
It's probably the reason they're all getting high
But lately baby I have realized
Everything is gon' be alright
Everything is gon' be alright
