

# In The Morning

**Yoshi Flower**

That you don't

Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop  
Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop

Run around the function 'til I cannot function  
Even with my mind numb, still wonder if you gon' come  
Fuck all of that fashion, I'm about that action  
Crowded in the bathroom, cut it like a fraction

Summertime, wintertime, it don't matter  
All the time, you're on my mind  
In the summertime, wintertime, that's all day  
That's all the time, you're on my mind  
That you don't

Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop  
Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop

Run around the function 'til I cannot function  
Fuck you if you let me, I wipe down all this money, yeah  
Everybody else knows I'm about that action  
Crowded in the bathroom, cut it like a fraction

Summertime, wintertime, it don't matter  
All the time, you're on my mind  
In the summertime, wintertime, that's all day  
That's all the time, you're on my mind  
That you don't

Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop  
Crush me, soft pack, peeled off, soft top  
Need that constant contact, and I hope it don't stop  
I swear to God, I pray so hard  
Down on the floor, ripped up jeans and my knees pop

Baby, don't forget what we did  
In the morning, in the morning  
Lately, losing grip, not equipped to be broken  
And I'm hoping that you don't
