

# INVISIBLE

**Yoshi Flower**

I can't figure it out  
Why I like when we drown  
Let's stare at the sun  
Let it burn  
With our eyes wide open  
Still wondering why  
We don't like being fine  
Just say that your mine  
Get me high

I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying

It hit me harder than the pavement that we landed on  
That's why I keep the medication in my carry on  
I spent all yesterday just thinking where the hell you been  
The only time we drive a Benzo is with Diazepine  
We could try harder but I think that would be irrelevant  
Hey at least I'm not as fucked up as the government  
I think we all just got a love affair with suffering  
Let's fly away  
Two pelicans  
Yea fuck it then

I can't figure it out  
Why I like when we drown  
Let's stare at the sun  
Let it burn  
With our eyes wide open  
Still wondering why  
We don't like being fine  
Just say that your mine  
Get me high

I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying

I said I'm sorry I'm a glutton for the punishment  
She said that's okay my daddy is a republican  
He said I'm way too broke and ugly and I'll never change  
I'll pick you up at 8 and we can run away  
Then maybe we can change up the zip code  
Then we unzip clothes  
Cash out the thrift store  
Then let the fifth pour  
'Cause I won't stop until there's diamonds on your teeth  
Diamonds on your neck  
Diamonds on your wrist  
Sadomasochist

I can't figure it out  
Why I like when we drown  
Let's stare at the sun

Let it burn  
With our eyes wide open  
Still wondering why  
We don't like being fine  
Just say that your mine  
Get me high

I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying to keep my head on fire  
I've been trying
