## Yoshi Flower

Tryna hit a jackpot  
Don't wanna be a have not  
Wonder what's the difference  
Without someone  
Living like a vampyre  
Running from the damn cops  
Lately I've been killing everything I touch

So give me now, give me now  
Give me your love  
Give me now, give me now  
Give me your blood  
Give me now, give me now  
Never enough

Come around, come around  
Give me some help  
I don't want, I don't want  
Nobody else  
Little bit, little bit  
It's never enough

I need more of you  
I need more of you  
And if you don't come around  
I'll be fading out  
I need more  
Of you

Suck it like a black hole  
If you ever come close  
Because all of this consumption  
I can't control  
Infinitely thirsty  
I want you in the worst way  
So I drink the last drop from the well  
Then I feel empty again  
Oh well

I need more of you  
I need more of you  
And if you don't come around  
I'll be swimming in the ground  
I need more  
Of you

I need more  
I need more  
I need more now

(So give me now, give me now  
Give me your love  
Give me now, give me now  
Give me your blood  
Give me now, give me now  
Never enough

Running now, running now  
Running it low  
Misera, misera...  
Miserable  
Chemicals calling out  
Where have you gone?)

I need more of you  
I need more of you  
And if you don't come around  
I'll be fading out  
I need more  
Of you
