

necklace (prologue)

Yoshi Flower

Come on
You need this
Don't you wanna be happy? (Don't you wanna be happy?)
Everyone is doing it
Pleasure

I thought I told you I was reckless
Do anything just for the next hit
I put some diamonds on your necklace
Tryna feel alright
But, your still my favorite exit
We're happy as expected, now
Goddamn you're pure perfection
And I'm sorry If I'm sounding psycho
I'm just trying to be honest
