

Smile

Yoshi Flower

When I make you smile I feel like God
The strongest substance I've ever been on
Makes me feel like I got super powers
Like I could part the sea or walk on water
When I make you smile I feel like God

You make me want to floor it in a foreign
To get to you it's really that important
The moment you approached me
It rearranged my brain
Everyone who knows you
Understands it's magical whenever it is happening
And I just wanna show you
Let's fuck until we're sore
We ain't never getting bored 'cause

When I make you smile I feel like God
The strongest substance I've ever been on
Makes me feel like I got super powers
Like I could part the sea or walk on water
When I make you smile I feel like God

It feels like heaven now where we go
I swear to God it isn't just my ego
This ecstasy is lethal
I'd jump through walls on fire
Like I was Evel Knievel
I'd never be deceitful
Or ever be dishonest
'Cause when you leave I would vomit
And run up to the steeple
I'm praying to the saints when you bring up your complaints 'cause...

When I make you smile I feel like God
The strongest substance I've ever been on
Makes me feel like I got super powers
Like I could part the sea or walk on water
When I make you smile I feel like God

(Hallelujah, hallelujah
Hallelujah, hallelujah
Hallelujah, hallelujah
Hallelujah, hallelujah)

When I make you smile I feel like God
The strongest substance I've ever been on
Makes me feel like I got super powers
Like I could part the sea or walk on water
When I make you smile I feel like God
