

## substance

**Yoshi Flower**

We never quit, we just switched up the substance  
Fall in love too quick  
While we're young we're like fuck it  
As this moment could be everything or nothing at all  
So this old mask won't fit tonight

I'm takin' it off  
I'm takin' it off

I'm off the shits  
That's a lie and now I need your help  
Oh I wish, yeah  
That I could save myself from myself  
And find my fix, yeah  
Be my plug and I don't need no one else  
'Cause this substance won't help tonight

I'm takin' it off  
I'm takin' it off
