

# Woke

**Yoshi Flower**

Last night we were spinning around  
With your arms around my neck  
Molly in our mouths  
Today we're coming down  
So just hold me in your heart  
Til we hit the ground

I'll be outside your house  
With a speaker up above my head  
And if you don't come down  
Then I'm waking this whole damn neighborhood up

With my love  
Wake up  
Then I'm waking this whole damn neighborhood up

You tell me that you love me now  
But I wonder what you say  
When I'm not around  
You promised we would be leaving town  
Now you're nowhere to be found  
Time is running out

Now I'm outside your house  
With a speaker up above my head  
And if you don't come down  
Then I'm waking this whole damn neighborhood up

With my love  
Wake up  
Then I'm waking this whole damn neighborhood up  
I'm waking this whole damn neighborhood
