

Dog Song

Yot Club

I can't see too clear
So I don't know what's near
I wake up and see my friends walking around
And I know that there's no fear

How does that feel?
How does that feel?
How does that feel?

Well, how does it feel to be a dog? I think I wanna know
No feels or feelings, obligations left to know
Just drinking dirty water left for me by the stove
It's easy, if you want it you can ask for it
And everyone delivers, all you do is sit
I don't care if you can't imagine living everyday like this

And how would that feel?
How would that feel?
How would that?
