

Fly Out West

Yot Club

I wanna make new plans for a big vacation
I wanna fly out west to a new location
I wanna move off the grid where I hunt and make my clothes, oh
no
Hoping you've been all good, heard you found a brand new home

Well tell me, do you know
You're all I dream about?
Take it from me -
I'm too dumb to recognise your doubt
Well, I don't wanna go
I'm in too far to leave
Tell me how you live so easily, young and naive

I can't heal you
I can't heal you
Talk bad, who's that, walk back to your place
I think you fake the smile that's on your face

Well tell me, do you know
You're all I dream about?
Take it from me -
I'm too dumb to recognise your doubt
Well, I don't wanna go
I'm in too far to leave
Tell me how you live so easily, young and naive
