

the feeling

Yot Club

I've been feeling all the same
I can feel it, locked away
And it's been killin' me today
I'll just heal another day

When I get the feeling
When I get the feeling
When I get the feeling
When I to feel the same

'Cause I need it, just a taste
And you can read it on my face
I just feel so out of place
I just feel so out of place

And I want the feeling
I want the feeling
I want the feeling
I just want to feel the same
