

# Bite My Tongue

You Me at Six

I hate to break it to you but  
You're just a lonely star  
I try to bring you down but  
A level isn't good enough  
You always do as you please  
So I'm gonna follow suit  
And take a seat  
And watch you fall apart (watch you fall apart)  
'Cause in the end  
Who are you without me?

I'll slow this down 'cause I know that you can't keep up  
Oh maybe I, maybe I was wrong from the start  
I might be proud, but at least I'm proud of something  
You've taken pride in becoming nothing

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me

I'm married to the music  
For better or for worse  
You say that I'm privileged but  
My gift is my curse  
I can't recall the last time  
Someone asking how I was  
Last I checked I was a fucking wreck  
I called for help and no one showed up  
So I sit in the dirt

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me

Don't forget what you've learned  
Don't forget what you've heard  
The truth just confirmed  
I can't bear the sight of you anymore.  
You've become what I hate  
Sold yourself for a bit of fame  
Now that the wolves have closed the door  
You wanna drag me down some more  
Fuck you  
Fuck you

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me

You keep me on the edge of my seat  
I bite my tongue so you don't hear me  
I wanna hate every part of you in me  
I can't hate the ones who made me
