

Opportunity

You Say Party! We Say Die!

Opportunity is a woman
She is always with a child
And her babies are beautiful
If you saw them
You would know what I mean

Opportunity, I love her
I've seen her dancing softer
I've watched her come in closer
I'm in love, I welcomed her home

My door, I keep open
With a guardian near to me
We light candle in the window
We wait dear for the key

Golden copper ring around her
Face soft and glowing, I see her
Come in closer, come in closer
Oh sister, daughter, mother

Don't you see her?
Reach out, touch her

I can see her, follow me

Golden copper ring
Face soft and glowing

Come in closer, oh my daughter
Come in closer, oh my sister
Come in closer, oh my mother
Come in closer, come in closer

Come in closer, oh my mother
Come in closer, oh my daughter
Come in closer, oh my sister
Come in closer, come in closer
