You Did It!

You Say Party! We Say Die!

Make up a list and now try and catch up with it
Make yourself twist and try to get out of it
Make up a lie now try and control it
Make yourself die and try to wake out of it

You did it
I can see that you're alive
You did it
Now throw away your pack of lies

I live in a house that's not my own
Oh goodness sake, you've got to build to your own home
You've got to catch up with the train
And throw all those heavy bags away

You did it
I can see that you're alright
You did it

Oh you did it
You did it
Oh you did it

Make up a list and now try and catch up with it
Make yourself twist and try to get out of it
Make up a lie now try and control it
Make yourself die and try to wake out of it
(x3)
Make yourself alive and know that you did it
