

## Starry Eyes

Young Bombs

My ground was always shaking, lost in my head  
Those years of running got me stuck in cement

'Cause all the things I never shoulda said  
Made me someone that I never shoulda been  
Take me back when it was only you and I  
Baby, look up at the sky

Open up your starry eyes  
So bright, so high, let's take our time  
All day 'n' all night, 'til sunrise  
Open up your starry eyes  
So bright, so high, don't say goodbye  
All day 'n' all night, 'til sunrise  
Open up your starry eyes

Open up your starry eyes  
All day 'n' all night, 'til sunrise  
Open up your starry eyes

So much I wanna tell you, so much I missed  
It's on the tip of my tongue, it's on my lips

So kiss me like you never did before, baby  
Say you want me but I want you more  
Take me back when it was only you and I  
Baby, look up at the sky

Open up your starry eyes  
So bright, so high, let's take our time  
All day 'n' all night, 'til sunrise  
Open up your starry eyes  
So bright, so high, don't say goodbye  
All day 'n' all night, 'til sunrise  
Open up your starry eyes

Open up your starry eyes  
So bright, so high, don't say goodbye  
All day 'n' all night, 'til sunrise  
Open up your starry eyes  
Open up your starry eyes
