Let me holl at you niggas for a minute
See how many niggas out there really

I'm living the life of a hustler, nigga
If you don't like me, then fuck you, nigga
I got down for five and my dove for 10
I won't serve you now if I ain't served you then
Pop get hot and it's turn rock
Hen it's back to the block.got to run from the cops
My hood on lock and I ain't left yet
Some bitch ass niggas keep sending death threats

I got six bricks left till my work is gone
So Lord ride with me while I'm heading home
I know right for wrong but I've been broke too long
And I ain't got nobody spme me and this chrome
Six bricks left till my work is gone
So Lord ride with me while I'm heading home
I know right for wrong but I've been broke too long
And I ain't got nobody spme me and this chrome

The life show let's rock and roll
The block getting hot and I got the gold

Push break until something happen push
Go get us all fucked up, y'all
But you won't get it until another one falls
You better get your money whowever, whenever, whatever, homie
Sleep when you're dead is what our old head told me
Life ain't promised.don't take it for granted
From project buildings to a big ass mansion
And now I'm in the game I'm really understanding
It's about getting money and expanded

I got six bricks left till my work is gone
So Lord ride with me while I'm heading home
I know right for wrong but I've been broke too long
And I ain't got nobody spme me and this chrome
Six bricks left till my work is gone
So Lord ride with me while I'm heading home
I know right for wrong but I've been broke too long
And I ain't got nobody spme me and this chrome
