Young Buck

Do what I gotta do (let's do it)  
I'ma shoot it out with anybody too (true)  
I guess they didn't hear me when I said nobody move (boom)

Cock it (boom), make it (boom)  
Came from nothing, I just made the trap (boom)  
Cock it (boom), make it (boom)  
You ain't nothing, you don't let your strap (boom)

Since a juvie I've been making movies with this Uzi  
I don't talk like this usually but niggas done confused me  
Shot it out with the best, I buried the rest of them  
I know these niggas hate me, I refuse to let these niggas do me  
Don't see demons, I have no nightmares  
I did it all for a reason and who said life's fair?  
My lil partner went in at 21 and he done got white hair  
Keep telling me if he was here, he knew he would've been right there  
Wish he never put his fingertips on niggas' clips  
Loose lips seems to always sink a killer ship  
These bitches flip, talk for that lil thousand dollar tip  
These niggas get caught, and get hit all up in they whip

Cock it (boom), make it (boom)  
Came from nothing, I just made the trap (boom)  
Cock it (boom), make it (boom)  
You ain't nothing, you don't let your strap (boom)

Yellow tape around the bricks, they left somebody bodied  
Picked him up and cleaned his blood up, it's just another homi  
You picked up that chopper, young nigga can't run to mommy  
Too many bullets been back and forth for me to say I'm sorry  
Turn your T-shirt to a ski mask, and we blast  
OG get a word and these young niggas do what he ask  
Ain't no guarantee you making it back home (back home)  
They say gangsters don't live that long, yeah

Do what I gotta do (let's do it)  
I'ma shoot it out with anybody too (true)

Politics, I seen niggas die for different shit  
Before you get somebody hit, know who you got a problem with  
Interrogation, detectives know you don't have common sense  
They hit you with that you never gettin' out and you niggas snitch  
Fingerprints, I told my mans don't touch it with your hand  
They put that shit up under that blue light and fuck up niggas' plans  
Evidence, when you go just be careful as you can  
Do what you do and understand boy

Do what I gotta do (let's do it)  
I'ma shoot it out with anybody too (true)  
I guess they didn't hear me when I said nobody move (boom)
