

# Compare Me

Young Buck

Starring on these empty stair cases thinking about all the dirt we done  
And all the losses y'all took and all the work we won  
Son of a shooter it's comparing me my blood 'cause  
Show me some love but in these streets nigga just slum duck  
Used to myself in the rot because I grow for left  
Pop said nigga you speak the peace and never hold your breath  
So what they know I do not vote or encourage an' shit  
'Cause who's enough is not determined when terror is hit  
Take my financial situation and go fuck it too  
Before I made a rap dollar my qualers been coming through  
See from a clear view not close enough to hear you  
But I'm not you know that eyes don't lie  
Think my heart ain't bigger than my body nigga gon' try  
Guess I'm lean up these rapper verses and set 'em on fire  
Feed a grown man baby food but see not I  
It's back to moving dni and don't ask me why

You compare me, don't you compare me  
I'm not none of them I'm not none of them  
I rap you nigga solo just me and this before for  
And I won't change a thing I'll do it all over again  
So please don't you compare me, don't you compare me  
I'm not none of them I'm not none of them  
I rap you nigga solo just me and this before for  
And I won't change a thing I'll do it all over again

Put all my albums in one basket but only once  
'Cause if one goal's right and then that's for the whole bun  
Travelling and tripping of this trooper he keep following me  
Tryna' find something to make up cosmology  
Hi, hello who this that keep on bothering me  
It's my cousin just lost his scholarship for arm robbery  
Nothing I can tell you but hussle and play the lottery  
They say it's better days I know it is it's gotta be  
My daughter ask me daily do I know the people shoot at me  
I tell her baby life is not a game this not monopoly  
So whatever you do just make sure you do it properly  
Then you finally find it then you fuck it with a prophecy  
Wait till I get free,  
Honestly this industry has no idea how fucked up I really could be  
Feed a grown man baby food, but know not I  
Expect to move in dni and don't ask me why

You compare me, don't you compare me  
I'm not none of them I'm not none of them  
I rap you nigga solo just me and this before for  
And I won't change a thing I'll do it all over again  
So please don't you compare me, don't you compare me  
I'm not none of them I'm not none of them  
I rap you nigga solo just me and this before for  
And I won't change a thing I'll do it all over again
