First Lady

Young Buck

You're so crazy
You know that I'm your first lady
You're so crazy
You know that I'm your first lady
Boy, you so crazy

Come here baby why don't you go turn them lights out
Tonight's the first night we gon' fuck in this White House
A glass of Don, the helicopter's on the lawn
I been testing nuclear bombs baby me and Kim Jon hey
How 'bout some sushi, catch a movie and do dinner later
Can't miss this meeting with Guiliani he did some favors
The reason why we in here fucking right now on this table
I couldn't win everybody's favor but he was able
Is that Obama's picture hanging on the wall
Go get security and tell them take it off
Let's change the sheets and sleep and hope we see tomorrow
Then go stand out in front these cameras let 'em see just who we are
Me and the first lady

You know I need you
You know that I'm never gon' leave you
Hey
(I'm fucking on the first lady)
No they don't believe you
But I know what you do is illegal
(She the first lady)
Well baby, you know you heaven sent
I made you my president, it's evident
(I made her my first lady)
But baby, what are we gonna do
Cause they don't want you no more but I still want you
I'm your first lady

Let down your hair, put on your prom dress
I need you to look your best in front the congress
Put your hands around my neck and let your arms rest
We gon' dance tonight and wait 'til we get bomb threats
A couple meetings, I got briefings in the morning baby
Really don't know what I be speaking, they gon' think I'm crazy
Who's this Maxine, she keep talking 'bout this whistleblower
Maybe you should just go reach out and try to get to know her
Been trying to get some black votes so I been on tour
Taking pictures, eating chicken where the niggas are
Keep playing with me I will start a fucking Twitter war
What you think I put all these niggas in prison for

You know I need you
You know that I'm never gon' leave you
Hey
(I'm fucking on the first lady)
No they don't believe you
But I know what you do is illegal
(She the first lady)
Well baby, you know you heaven sent
I made you my president, it's evident
(I made her my first lady)

But baby, what are we gonna do
Cause they don't want you no more but I still want you
I'm your first lady
