If you just a nigga spinnin outside  
We gone hustle bout da wide  
Overside  
Nigga hit there ass up  
Every body die when the bullets start to fly  
Let em dry till da ambulance pick there ass up  
Man down (aeeeh)  
Some body got hit  
Them niggas can't do it empty out the whole clip  
Man down (awhh)  
You hear em people screamin  
They pumpin on the chest but your man ain't breathin'

Since homie know ma face  
Ain't no need for no ski mask  
Hollow tips can make a nigga go to sleep fast  
Catch em stuck and show em nauf in his E class  
Pull up and put a hole in his cheap ass  
Bought a glock and a kayne with a body on it  
And show the blood over spit nobody else want it  
Whole kinda bitch throwem in da back seat  
Empty out the clip make them hoes wanna track me  
Don't u love it when your enemy has lost  
And the sound of the 12 gage when it sound doze  
U cathc that ass slippin and he blame it on hiss boss  
Begin or his life askin you how much it cost  
A bullet has no eyes and the trigger has no heart  
The people never stop so the war bout to start  
Don't be out there  
Am tellin nigga as soon as filthy dark  
We gone circle bout da block  
And throw it less you want

(let's gooo)

Cause I be sittin in da drop  
Skimmin with the top  
Then your hoes saw the video now they wanna pop  
And maybe cause I gave David that stack  
He cover ma risk with invisible sacks  
Fresh off the private jacks  
Now we in da projects takin pictures with the kids  
Call me ORP or VIP da dawn  
The people love me cause I say what they want  
Tell these rappers they ain't shit they mommas too  
When u see me in da streets whachu gonna do  
Pull your heads down to your feet and grow somewhere else  
Better escape far make sort out your grill
